2019 14th International Conference on Advanced Technologies, Systems and Services in Telecommunications, TELSIKS 2019 - Proceedings  
October 2019, Article number 9002184, Pages 368-371  
14th International Conference on Advanced Technologies, Systems and Services in Telecommunications, TELSIKS 2019; Faculty of Electronic Engineering, University of NisNis; Serbia; 23 October 2019 through 25 October 2019; Category numberCFP19488-USB; Code 157941

## Development of an Education Information Portal with Microservices (Conference Paper)

Kostolny, J. ✉, Bohacik, J. ✉

University of Zilina, Faculty of Management Science and Informatics, Zilina, Slovakia

### Abstract

View references (8)

Many existing web portals make the learning of children and preparations of teachers easier, however, only few of them combine all desired functionalities. For this reason, an education information portal is being developed with the application of modern architectural patterns, the utilization of a microservices architecture and the ASP.NET Core framework. © 2019 IEEE.

### SciVal Topic Prominence ⓘ

Topic: Students | Education | Digital game-based

Prominence percentile: 98.386 ⓘ

### Author keywords

Digital games Education information portal Microservices

### Indexed keywords

Engineering controlled terms: Education computing

Engineering uncontrolled terms: Architectural pattern ASP.NET Digital games Education informations Microservices

Engineering main heading: Portals
